Directions for Incoming AP Statistics Students for Fall 2018

Students should have picked up their Statistics Textbook before the end of the school year, but otherwise can use the online textbook to do their assignments. The following Summer Packet Materials are posted on the district website. Students are expected to do the following:

1. Students should read "**Success as an AP Student**".

   This document offers some general advice for being a student in an AP class.

2. Access the online textbook using "**Student Directions to access text online**"

3. Students should print and use at least one of the following to guide their notetaking from the textbook:
   - **Chapter 1 AP Web Notes**
   - **Chapter 1 Model Student Notes**
   - The textbook authors' Power Point Presentations (**TPS5e Lecture PPT Ch1.1**, **TPS5e Lecture PPT Ch1.2** & **TPS5e Lecture PPT Ch1.3**)

4. Students need to have the homework problems listed below done and with them on the first day of class.

   Section 1.1 # 1 – 31 odd, and 28, 30, 32 (skip 9) … 18 questions

   Section 1.2 # 37 – 73 odd, and # 60, 70, 72, 74 (skip 49, 51, 57, 61, 63, 67) … 17 questions

   Section 1.3 # 79 – 109 odd, and # 108, 110 (Skip 85, 101) … 16 questions

To summarize, all incoming AP Statistics students will:

- Read Chapter 1 thoroughly (probably more than a few times).
- Take notes on Chapter 1 using the notetaking guides as resources in addition to the textbook.
- Show work for all assigned Homework Problems.
- Be prepared to discuss all topics from Chapter 1 in class.
- Be prepared for assessments on Chapter 1 <u>as early as the second session of class</u>.
