PUBLIC PERFORMANCES BY STUDENTS

1321

Participation by students representing any school or any school activity in any public function or activity must have approval of the school administration. While participating in these public functions, the students are under the jurisdiction of the school authorities. Students may not participate in public functions where alcohol is served. Exceptions for specific events, e.g., sporting events, cultural events, may be made by the Superintendent of Schools or his/her designee, provided the students are sufficiently chaperoned and protected from the service of alcohol at the specific event.
