

Business and Non-Instructional Operations

STOLEN PERSONAL PROPERTY

3532.3

If an item is stolen or damaged in school, and the item belongs to a student or staff member, neither the Town nor the Board is liable for that item. The only exception would be when a student or staff member brings in an item for limited school use (e.g., needed one time only) at the written request of an administrator. However, items that replicate system-provided capabilities, such as laptops owned by staff members, would not be covered.
