Fashion Merchandising and Design

Fashion Merchandising and Design

Fashion Merchandising and Design brings to life the business aspects of the fashion world. It presents the basics of market economics, textiles, design, and promotion, as well as the textile/apparel/retail soft goods chain. The study of fashion retail fundamentals and strategies for success are studied and implemented in order to determine how the merchandise is accessible and appealing to customers. Fashion Merchandising and Design incorporates the promotion of apparel sales and involves all of the tasks necessary to deliver merchandise requests and meet the needs of potential customers and designers. As in the Fashion Industry, Fashion Merchandising & Design involves developing campaigns, displays, advertisements, directing the manufacturing and marketing, as well as selling for the fashion industry retail environment.

Fashion Merchandising and Design 10

Fashion Merchandising and Design 10

This course offers students an introduction to the business of fashion, including design, promotion, visual merchandising, and retailing. Hands-on experiences will include field trips, business and career exploration, and the implementation and operation of a student-run boutique. Students will be responsible for forecasting, acquiring, and styling merchandise as well as advertising, display and sales of merchandise.

In level 10 the learner will:

- examine strategies used in successful business and marketing campaigns.
- build a plan for the successful design and merchandising of products
- implement appropriate skills

National Standards for Family and Consumer Sciences Education

Developed by the National Association of State Administrators of FCS

©2008-2018

Area of Study 16.0

Textiles, Fashion, and Apparel

Comprehensive Standard

Integrate knowledge, skills, and practices required for careers in textiles and apparels.
