COURSE DESCRIPTION

This course is intended to prepare students for the world of budgeting and money management. Personal Finance will include such topics as banking, budgeting, income, loans, investments, credit, taxes, insurance, data representation and data interpretation. Student activities will include real-life situations (for example, purchasing a vehicle).

COURSE OBJECTIVES

Students should:

- understand and describe patterns and functional relationships.
- understand that a variety of numerical representations can be used to describe quantitative relationships.
- use numbers and their properties to compute flexibly and fluently, and to reasonably estimate measures and quantities.
- collect, organize and display data using appropriate statistical and graphical methods.

UNITS OF STUDY

- Banking (Checking and Savings)
- Income
- Budgeting
- Purchases (cash/credit)
- Loans
- Vehicles
- Investments
- Insurance
