COURSE DESCRIPTION

This course in Economics deals with fundamental economic theories, methods, and modes of expression. It introduces students to laws of demand, supply, production possibilities, diminishing returns, and the traditional graphs which express these concepts. It teaches the specialized vocabulary of financial planners and investors such as stocks, bonds, mutual funds, and deferred income funds within the context of the Federal Reserve System and stock and bond trading. It explores the theories of Adam Smith and Karl Marx as well as the methods and successes of American entrepreneurs such as Bill Gates and Oprah Winfrey.

COURSE OBJECTIVES

Students should:

- identify and explain how scarcity requires individual, business, and government to make choices about the goods and services they use.
- understand and explain how supply and demand influence economic systems.
- evaluate the role and function of fiscal and monetary policies.
- analyze and utilize the tools of financial markets and institutions in today's economy.
