

“The 21st century has taught us that we cannot ignore the world around us. Happenings around the globe now directly impact our lives, and social studies teachers and students around the country face the challenge of interpreting complex, puzzling events. The AP comparative course focuses on government and politics in other countries and provides a theoretical framework to compare political systems around the world.” – Ethel Wood

Course Description: This is a one year course designed to give students an analytical perspective on global politics. Summer Assignment:

Part One:

In your textbook, *Essentials of Comparative Politics with Cases (O’Neil)*, read the first two chapters (pages 2-61). Complete the note sheets for each of the chapters and bring to class on the first day. Note sheets are attached at the end of this assignment.

Part Two:

Use dividers between sections. Each section should include a table of contents page with Country Heading, Title and Source for each article.

B. During the summer collect **three** news articles per country. The articles should span the duration of the summer, and not only reflect 1-2 weeks prior to the start of school. The articles should provide you with information about the political, economic, and/or foreign policy issues confronting each nation. Articles may come from newspapers, periodicals, magazines, and/or the Internet.

Look closely for connections to terms and theories you were introduced to in your chapter readings. Label each highlighted comment in each article with the applicable term or concept from your O'Neil text. Comment in the margins, sharing your thoughts about what you have read.

D. Three articles per nation are the minimum number of articles required. Though extra credit will not be awarded for collecting, highlighting and labeling additional articles, you may include as many articles in the binder as you wish to read.

E. Conclude each section with a **typed** paragraph that analyzes the challenges for each nation, both foreign and domestic, as well as the strengths that each government possesses. Additionally, assess the assets and challenges the nation poses to the International Community.
