## Grade 5 World Language: Description

The primary goal of the Fairfield Public Schools World Language Curriculum is to prepare students to be lifelong learners in an ever changing global society by developing the ability “to communicate effectively and interact with cultural competence to participate in multilingual communities at home and around the world” (National Standards in Foreign Language Education Project, p.11).

Students in the Fairfield Public Schools are *immersed in a World Language program which emphasizes “knowing how (grammar), when (context), and why (purpose) to say what (vocabulary) to whom (audience)”* (National Standards in Foreign Language Education Project, p.12). *Emphasis is placed on the three communicative modes: presentational (written and oral language), interpretive (oral or written messages), and interpersonal (direct oral communication) and the study of culture, which is based on the relationship between product, practice, and perspective. Vocabulary development, functions and related grammatical structures and the exploration of culture are maintained through reading, writing, speaking, and listening activities throughout the program.*

Aligned with the newly released National Standards, World-Readiness Standards for Learning Languages, State Standards, and the AP Themes, our program introduces students to the target language and culture through authentic materials and real world application allowing learners to learn, practice, and apply their developing skills in spontaneous interactions and in non-rehearsed contexts.

The learner in **Grade 5** will:

- communicate information on a few, very familiar topics using single words and simple phrases that have been practiced and memorized.
- recognize some familiar words and phrases from highly predictable oral or written texts.
- derive meaning from authentic texts that are extremely supported by visuals.
- write lists and short messages using highly practiced sentences and formulaic questions.

**Grade 5 World Language: Overview**

**Assessments**

Assessments are based on students' ability to read, write, listen, and speak the language in both rehearsed and unrehearsed formats. Correct use of language functions is included in each type of assessment. Students' progress will be measured with both formative and summative assessments. Common assessments will be used and analyzed by teachers of each course.

**Teacher Resources**

In addition to the approved text, teachers will use a variety of resources including authentic literature, videos, songs, and online periodicals.
