PARTNERSHIP PLAN HEALTH BENEFITS

Your Partnership Plan health benefits have changed. You can now avoid out-of-pocket costs – particularly when using labs, radiology and other imaging services.

Partnership employees and dependents will continue to have 100% coverage (\$0 copay) for lab tests, X-rays and other high-cost imaging services, like MRIs and CT scans, when they select a *preferred “Site of Service” (SOS) provider.*

The Office of the State Comptroller complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.

WHAT IS A PREFERRED “SITE OF SERVICE” (SOS) PROVIDER?

Site of Service (SOS) providers are labs, radiology and imaging centers that have proven to deliver high-quality, low-cost services. They are generally community-based providers that operate apart from an acute care hospital and offer only outpatient services.

HOW MUCH WILL I PAY OUT OF POCKET?

Using a Site of Service (SOS) provider will allow you to pay nothing for lab, radiology and imaging services. However, if you obtain these services at an in-network provider that is NOT a Site of Service (SOS) provider, here is what you could pay out of pocket:

- You will be charged 20 percent of the cost of the service (potentially hundreds of dollars out-of-pocket) when you obtain these services at providers not participating in the Site of Service (SOS) program; or
- you pay the standard copay for these services when they are performed at a physician or specialist's office during an office visit; or
- employees could pay 40 percent of the costs for using an out-of-network provider.

HOW DO I FIND A PREFERRED “SITE OF SERVICE” (SOS) PROVIDER?
