

Health Education:

PreK-12 Health education is a BOE approved curriculum focusing on the necessary health skills such as communication, decision-making, goal-setting, self-management, analyzing influences, accessing information and advocacy.

In accordance with State Statutes (C.G.S. 10-16e 17a-101q and P.A. 88-112), parents who wish to exempt their children from AIDS, Family Life or Sexual Assault units may do so by submitting a written request to their building Principal and/or Health teacher.
