Reader's Theater

Reader's Theater offers an entertaining and engaging means of improving fluency and enhancing comprehension. In this class, students practice reading aloud from a script as a whole class, in pairs, as individual characters, and finally as a performance. The focus is on reading the text with expressive voices and gestures, making comprehending the text meaningful and fun for the student! No memorization is needed as scripts are held by the readers. Through repeated readings, students increase sight word vocabulary, learn to decode words quickly and accurately, phrase sentences appropriately, read punctuation marks, and read with overall greater ease. Reader's Theater motivates reluctant readers and provides fluent readers with the opportunity to explore genre and characterization. If you're searching for a way to get your child reading aloud with comprehension, expression, fluency and joy, then this is the class for them.
